Convenient Bundle Pricing

Customers can pick and choose any 4 or 8 modules at a discounted rate. Choose the topics that you are most interested in.
Pharmacy Tech Topics™ is an education service that publishes four modules of home-study continuing pharmacy education (CPE) each year for certified pharmacy technicians. Upon successful completion of each module’s post-test (70% or better), 2.5 contact hours of ACPE accredited continuing pharmacy education credit will be awarded. This continuing pharmacy education credit meets the requirements of the Pharmacy Technician Certification Board (PTCB).

Designed Specifically for the Certified Pharmacy Technician!

Eight Pharmacy Tech Topics™ modules fulfills all of PTCB’s recertification requirements (twenty contact hours of technician-specific CPE, including law and patient safety credit)! Each Pharmacy Tech Topics™ module contains written continuing pharmacy education with learning objectives, references, a post-test, and an educational evaluation form. We automatically report your credit hours to CPE Monitor for each successfully completed module.

Pharmacy Tech Topics™ modules are authored by leading experts in their field, and address the latest disease management and operational issues. Module topics are based on subscriber input. The Pharmacy Tech Topics™ Steering Committee uses your suggestions to develop future modules. On the right is a tentative order of release for the 2023 Pharmacy Tech Topics™ modules. Variations in programming may occur.

What our subscribers are saying...

“I love Tech Topics! It’s a one-stop-shop for me to cover all required topics for recertification.”

“You guys are GREAT!!! All the home study topics have been well written and very interesting and helpful in my field of pharmacy.”

“As I was studying this module, I thought “Why have I never been taught this in the past?” I’ve been a technician for 6 years, and this is the first I’ve heard of any of this. Thank you for teaching about it.” (Advocacy module)

“I enjoy your product. The topics are current and interesting. They are well written and you always make sure to offer the courses I need to renew my license.”

“I love the program! Super easy! And affordable!”

“Keep the information coming! The modules are not too wordy or lengthy - I get so much out of reading them!”

“Clear, concise, complete CE modules.”

2020, 2021 & 2022 MODULES ARE STILL AVAILABLE!

Tests must be received by the expiration dates to receive continuing pharmacy education credit.
